HEMA NARENDRA REDDY NARALA

Data Analyst

naralahemanarendra@gmail.com | +91 7729034993 | Bangalore | LinkedIn | GitHub

Professional Summary

Analytical B.Tech graduate in Computer Science & Engineering (Data Science) with hands-on skills in **SQL, Python, Power BI, Tableau, and Advanced Excel**. Skilled in **data cleaning, data analysis, EDA, ETL, data modeling, dashboard development, data visualization, KPI reporting, and relational database querying**. Seeking an entry-level Data Analyst role to transform data into actionable insights and support data-driven decision-making.

Education

Nalla Narasimha Reddy Education Society's Group of Institutions — Hyderabad, India

B.Tech – Computer Science & Engineering (Data Science) — *Dec 2021 – June 2025*

- **CGPA:** 7.29 / 10.00
- **Relevant Coursework:** Advanced Data Structures, DBMS, Machine Learning, Python for Data Analysis

Technical Skills

Programming & Data Analysis: Python, Pandas, NumPy, Data Cleaning, Data Analysis, Statistical Data Analysis, Exploratory Data Analysis (EDA), Automation

Databases & SQL: SQL, MySQL, DML/DDL, Multi-table JOINs, Subqueries, CTEs, Grouping & Aggregations, Window Functions, Views, Stored Procedures, Triggers, Relational Data Modeling

Business Intelligence & Data Visualization: Power BI, Tableau, Excel, Data Visualization, Dashboard Development, KPI Tracking, KPI Reporting, Report Automation

Microsoft Excel: Pivot Tables, Power Query, Power Pivot, DAX Formulas

Projects

Healthcare Analytics | *Excel, SQL, Power BI, Tableau* — GitHub

- Analyzed healthcare data across **4 business areas**—patients, treatments, visits, and financial performance—to identify actionable insights.
- Built SQL database solutions using **5+ advanced SQL techniques**, including JOINs, subqueries, aggregate/window functions, views, and stored procedures.
- Developed Power BI and Tableau dashboards covering **4 analysis areas**: KPIs, treatment analysis, patient distribution, and visit trends.

Zomato Restaurant Analysis Dashboard | *Power BI* — GitHub

- Built a dynamic Power BI dashboard using **4 core analytics techniques**: ETL with Power Query, Data Modeling, DAX, and Data Visualization.
- Developed interactive KPI dashboards and analytical reports to identify trends and support data-driven business decisions.

Retail Sales & SQL Reporting Engine | *MySQL, SQL* — GitHub

- Developed a relational retail database and SQL reporting solution using **7+ SQL capabilities**: JOINs, CTEs, subqueries, window functions, Views, Stored Procedures, and Triggers.
- Built profitability and product-ranking analysis with automated audit logging and data-quality checks to generate actionable business insights.

Certifications

Power BI Job Simulation – PwC & Forage — March 2025

View Certificate

- Completed a hands-on Power BI simulation covering **6 areas**: call center trends, customer retention, diversity & inclusion, data modeling, KPI tracking, and business insights.

NASSCOM – Certificate Program in Data Analyst — August 2026

View Certificate

- Gold — **88% Assessment Score** — Certification ID: FSP/2026/8/10371259

ExcelR – Data Analyst Program — August 2026

View Certificate

- Certificate of Excellence — Certificate ID: 36655/EXCELR/36655
